	18124-5 SHOCK ABSORBER IDENTIFICATION CHART			

The production number is stamped on the barrel of each shock absorber as an identification marking. The following chart will provide quick identification of the service kit number when the identification marking is known. Also shock absorber kits may be selected by model, year and description under group number 18124-5 which follows the chart. Shock absorber kits include insulators, bolts, nuts and washers.

In those instances where both Ford and Motorcraft numbers are listed, Canadian dealers are to order Motorcraft numbers only.
